

PLATE I

Highway X3, under the roof slot

E-GO BY ADAMAR · AOTEAROA'S ONLY ELECTRIC MARQUE

A Private Viewing

The range catalogue – nine machines, one in the light.

AUCKLAND · NEW ZEALAND

FROM THE OWNER

*We didn't set out to build
another electric vehicle brand.
We set out to build the only one
worth building — here, in New
Zealand.*

CORRADO RAMADA · ADAMAR INTERNATIONAL LIMITED

Adamar builds electric motorcycles and two-wheelers in Auckland. Motor, battery and controller are engineered together as one system, not assembled from off-the-shelf parts.

This catalogue shows the whole range: seven machines available now, with studio portraits to follow, and two coming soon — Hunter, and the Highway X3, shown here for a first look.

HELD TO THE LIGHT · POUNAMU

*We would rather say less
than we can deliver than
promise more than we can
build.*

OUR PRINCIPLE FOR EVERY FIGURE IN THESE PAGES

The Hall

Seven machines available now. Two coming soon – Hunter, and the Highway X3 in the light.

PLATE II

The first to carry the name

||| ADAMAR

COMING SOON · ELECTRIC MOTORCYCLE · BUILT IN AUCKLAND

Highway X³

Drawn around the drivetrain, from the first sketch.

FASCIA · PLATE IV
Signal, not decoration.

BRAKES
Dual hydraulic disc, front and rear.

FINISH
One tone. One continuous form.

HIGHWAY X3 · THE MACHINE

Every line exists because the engineering demanded it.

A direct-drive electric motor, engineered in-house for the Highway platform. Motor, battery and controller engineered together as one system.

Battery management prioritises longevity and safety, sized for real-world New Zealand riding, with continuous telemetry and remote diagnostics.

The five-bar fascia light is there to be seen first. Visibility first, identity second.
